YOUR ACT TEST SCORES Your 06/04 ACT scores, listed below, provide one way to estimate your level of educational development. The ranks show how your scores compare with those of recent high school graduates who took the ACT while in high school. For instance, your ENGLISH score (27) has a rank of 88. This means that 88% of the ACT-tested students scored at or below your ENGLISH score. The rank of your Composite (average) score indicates that your overall educational development is likely in the top quarter of ACT-tested students.

To emphasize that test scores are only estimates, bands are drawn around your ranks. Check the bands for the four tests (English, Math, Reading, Science). If bands for two tests do **not** overlap, your ranks probably differ. For three of the tests, additional scores (subscores) are provided. Check the subscore bands for English, then Math, then Reading. If the subscore bands for a test do **not** overlap, your ranks probably differ. Use the bands to identify knowledge and skill areas you may want to work on. The areas are described in *Using Your ACT Assessment Results.*

YOUR COLLEGE PLANNING Admissions standards differ among colleges and, sometimes, among programs of study within a college. A list of typical class ranks and ACT composite scores at colleges with different admissions policies is provided on the back of this report. Check with the admissions office at the college of your choice if you have any questions.

The table below gives information about the colleges you listed when you registered for the ACT. For example, SAINT LOUIS UNIV has a selective admissions policy. Your ACT composite score is estimated to rank in the middle half of entering students. The average high school GPA for freshmen is 3.47--less than the 3.79 for the grades you reported. ACT does not have all the information necessary to estimate your chances of a "C" average or higher at this college. Programs of study related to the one you listed (HEALTH SCI & ALLIED, GEN) are available; check catalog for specifics. The approximate cost of tuition/fees is \$22200/year, which does not include housing, meals, books, transportation, etc. About 72% of the current freshman class receives student aid based on financial need.
